# Unique, quick, spontaneous, intuitive and quirky sketches drawn on the day

## *What do I do?*

As far as I am aware, no-one else offers such an amazingly creative way to enable the special couple to remember their wonderful occasion alongside their other photos or videos.

I work unobtrusively, moving around the venue watching, observing and drawing. This is a very different way of working than most other wedding artists. My sketches are not caricatures or painted portraits created as entertainment or gifts for the guests.

The work I do could easily be given as a wedding present for the happy couple by family members or a group of friends.

# What do I draw?

Using an iPad or a sketchbook with pen/ink/watercolour, I can potentially create around 40 or more unique images of anything I see. I am like a photographer who draws instead of taking photos.

# What do you get?

Everything I draw can be supplied as:

- original sketchbook drawings
- a white, hardback 210mm x 210mm photo-book in a presentation box
- a framed montage
- all images digitally

## Pricing

I generally charge around £900 for the whole day and I can often be on location from mid-morning until midnight. For more information please see my website:

[www.matthewslater.art](http://www.matthewslater.art)

This price is inclusive of everything I offer. This is also based on a wedding location within 100 miles or so of south Bedfordshire. Travel or accommodation further afield may be charged extra dependent on location.

I am also available for garden parties, family celebrations or other events that would suit my style of working.
